

Let's Clear The Air

**Nothing Is Clearer Than The Voting Record
on THE Major Issue of the Past Council Term**

Clarington Votes

May 2009: Host Community Agreement vote which would make Clarington a "willing host" to an oversized incinerator.

YES ABERNETHY, NOVAK, ROBINSON, TRIM

NO FOSTER, HOOPER, WOO

*This was a major turning point for Clarington.
ROBINSON'S switch in position resulted in a willing host status.*

July 6, 2009: Vote to terminate Clarington expert reviewers before the final Environmental Assessment completed.

YES ABERNETHY, NOVAK, ROBINSON, TRIM

NO FOSTER, HOOPER, WOO

*As a result, Clarington did NOT review or
submit ANY comments to the province on the Final or Amended EA.*

March 2010: Vote to hear the municipal solicitor's report on legal concerns with the Host Community Agreement with Durham Region.

NO ABERNETHY, NOVAK, ROBINSON, TRIM

YES FOSTER, HOOPER, WOO

*The Host Community Agreement was negotiated
by Clarington and Durham Region staff with no public consultation.*

Durham Region Votes

ABERNETHY and NOVAK voted to:

- Adopt Courtice as the preferred site (January 2008).
- Endorse business case which understated costs of the project at \$198 million (May 2008). *Project cost has since escalated; reported as \$272 million in June 2009.*
- Support an oversized incinerator based on *draft* documents. NO council review of draft contract with Covanta required before Regional Chair would sign (June 2009). *The go-ahead vote was 16-12. Had ABERNETHY, NOVAK and TRIM voted against the proposal, the incinerator project would not have proceeded*

The voting records can be found at www.Clarington.net and www.Durham.ca

**Clean air and healthy communities matter.
We cannot afford a polluting incinerator,
financially or for our health.**

Accountability — Integrity — Transparency

Please find out where ALL candidates stand on major issues.

Please vote on October 25th and make your choices carefully
