

Agree with Crombie, Disagree with Secrecy and Ethanol Plant

April 19, 2010

To The Oshawa Express:

To the editor:

I agree with David Crombie's report which recommended the lands at the harbour be returned to the city of Oshawa. I am completely opposed to the building of an Ethanol Plant at the waterfront right next to the Second Marsh. And to have these negotiations kept private from the people of Oshawa is outrageous. Mr. Carrie, Mr. Flaherty, and Mr. Baird of the Federal Conservatives, as well as, all of the city's Council need to come clean and let the people of Oshawa in on what they are planning for our beautiful waterfront.
