

## **Too many schools too close to preferred site**

Mon Oct 01, 2007

To the editor:

So, Hwy. 401 and Courtice Road is a good place for an incinerator because there are "only two houses in the one-kilometre radius of the site."

Look at what's within a 10-km radius: Dr. Emily Stowe Public School, about 5.5 km from the preferred site; S.T. Worden Public School, about 6.5 km from the preferred site; Courtice North Public School, just under 5 km from the preferred site; Lydia Trull Public School, just under 4 km from the 'preferred site; Dr. G.J. MacGillivray Public School, just under 5 km from the preferred site; Good Shepherd Catholic School, just under 5 km from the preferred site; Mother Teresa Catholic School, about 5 km from the preferred site; Monsignor Leo Cleary Elementary School, 6 km from the preferred site; Courtice Secondary School, just under 5 km from the preferred site; Holy Trinity Catholic Secondary School, just under 3 km from the preferred site.

These figures take into account neither children in private schools, nurseries, day cares and at home nor schools in areas surrounding Courtice.

What are we doing?

Kristin McKinnon-Rutherford
