Clear bags is going too far

Mon Mar 17, 2008

To the editor:

Re: Region takes ideas on waste diversion just a little too far, Friday, March 14.

Thanks for your excellent opinion piece in the Port Perry Star. Every concern you brought up about clear garbage bags is right on the money.

The privacy concerns of having the garbage truck being the judge of what I may or may not put in my garbage is just going way too far. I will certainly do my part to recycle, and so do most other people, but I would suggest that the introduction of clear bags will lead to more illegal dumping and more disputes with garbage collectors. Does the Region really want this?
