Councillors deserve kudos for shining light on topic

Mon Apr 07, 2008

To the editor:

Re: To debate or not to debate that is the question, April 2.

Here's another question. What's the outcome in a democracy when dissent and debate are quashed? Mayor Jim Abernethy's marathon council infomercials by his cherry-picked pro-incineration presenters reeks of filibuster tactics.

Continuing with this sham practice as a way to bar the public from meaningful debate on such an important issue is unacceptable.

Kudos to Councillor Adrian Foster and the other council members who are bringing this to light.
