

**DURHAM/YORK RESIDUAL WASTE STUDY**

The Regions of Durham and York are jointly undertaking an Environmental Assessment Study to determine how to manage the residual solid waste remaining after blue box and green box waste diversion efforts. The study has identified a number of potential sites in Clarington, as well as one in York Region, for the construction and operation of a facility to thermally treat the residual waste and to recover both energy and materials.

The General Purpose and Administration Committee of Clarington Council will be considering a Staff Report with respect to the proposed studies and peer reviews the Municipality of Clarington would carry out on the Durham/York Residual Waste Study on:

**DATE: TUESDAY, MAY 22, 2007**  
**TIME: 7 P.M.**  
**PLACE: Council Chambers, Municipal Administrative Centre**  
**40 Temperance Street, Bowmanville, Ontario**

A copy of this Staff Report may be obtained by contacting the Municipality of Clarington Planning Services Department at (905) 623-3379.

Should you wish to appear as a delegation in respect to this item, arrangements should be made through the Municipality of Clarington Clerk's Department **ON OR BEFORE TWELVE NOON ON FRIDAY, May 18, 2007** to have your name appear on the agenda. Please note that we cannot confirm the precise time at which the delegation portion of the agenda will be heard. The start time listed above reflects the time at which the General Purpose and Administration Committee Meeting commences.
