## Clarington council schedules summer meeting

Thu Jun 28, 2007

CLARINGTON -- Local council has taken the unusual step of scheduling a summer meeting.

Usually, council and committee meetings are held only at the call of the mayor during the summer.

But, this year, the General Purpose and Administration Committee will meet **Monday, July 30, at 9:30 a.m.** As soon as that meeting wraps up, council will commence.

There is an array of reasons for holding a summer meeting, given "the number of things that staff are dealing with, and the energy from waste challenge," said Mayor Jim Abernethy, noting the meeting would allow council a chance to give direction.
