Why isn't more recycled

Thu Nov 29, 2007

To the editor:

I am a resident of Durham, and was wondering why we don't collect all resin code 1 recyclables.

We seem to be fine with small water bottles, clear plastic spray/mouthwash bottles, but we won't pick up cookie trays, egg trays and the like, even though they are the same resin code designation.

What's up with that?
